5 June 1959

**MEMORANDUM FOR:** Director of Logistics

**ATTENTION :** Procurement Division

**SUBJECT :** FY-1960 Technical Representative Support Requirements -  
RB-69A Program

**REFERENCES :** (a) Memo to Director of Logistics, dated 6 April  
1959, subject: Same as above  
(b) Memo to Director of Logistics, dated 25 May  
1959, subject: Contractual Support for  
Phase VI, F2V-7 Test Program

1. In view of the recent decision to move the European Air Assets to Eglin AFB, Florida one immediate change will be required in the contractual arrangements requested in reference (a) above.

2. Reference (a), requested that [redacted], Granger Associates Technical Representative be in place at Wiesbaden, Germany by 1 July 1959. The movement of EAOB is tentatively scheduled to move back to Eglin AFB, Florida during the first part of FY-1960. Consequently, it is not desirable to send [redacted] to Europe only to be returned a short time later. It is requested, therefore, that the requirement contained in reference (a) be amended to read that [redacted] be hired for assignment to the Eglin AFB Unit instead of Wiesbaden, Germany. The Eglin AFB contract should cover period 1 August 1959 - 30 June 1960. We do not have a requirement before 1 August 1959.

3. All other contractual requests are the same as previously stated with the exception that domestic rates should apply upon return of Technical Representatives to the Eglin AFB Unit when EAOB unit is moved.

**SUBJECT: FY-1960 Technical Representative Support Requirements -  
RB-69A Program**

4. As a result of the change requested in paragraph 2, above, the assignment of [ ] to the Eglin AFB Unit as a full-time Technical Representative voids the Granger Technical Representative requirement in reference (b), above for the Eglin Phase VI test program. It is planned that [ ] will be the Granger Representative on both the Phase VI test program and the operational RB-69 aircraft to be transferred to Eglin AFB.
